Summary

I'm a self-taught UI/UX designer and frontend developer with a strong focus on creating user-friendly, cutting-edge designs. I built my web development portfolio and redesigned websites with high-quality design skills even before gaining formal UI/UX knowledge. Afterself-learning, I've continued to create aesthetic and functional designs, applying the latest trends and technologiesto deliver top-notch projects.

My Self-learn Journey

UI UX Designer

April 2023 – present

- Designed visually appealing and user-centric interfaces for personal projects, focusing on seamless interactions and modern trends.
- Redesigned websites to be more engaging and responsive, applying advanced UI/UX principles.
- Created wireframes, prototypes, and user flows in Figma, ensuring intuitive and aesthetically pleasing designs.
- Enhanced my skills by studying top UI/UX projects and incorporating best practices for improved user experience.

Web Developer

August 2022 – present

- Developed MERN applications, including Instagram and YouTube clones, with a focus on intuitive UI/UX using React, Redux, and NodeJS.
- Built responsive, user-friendly websites with HTML, CSS, and JavaScript, integrating UI/UX principles to enhance usability and aesthetics.
- Studied and applied UI/UX design in various projects, creating engaging front-end effects that prioritize user experience and visual appeal.
- Authored a guidebook on web development, emphasizing UI/UX best practices and offering practical exercises in HTML, CSS, and JavaScript.

Other Work Experience

Lab Technician, Shenzhen Harrow School

Lab Technician, Shenzhen Merchiston School
